Thomas A. Wilder

Executive Vice President
Nelson White Systems, Inc.
8725-A Loch Raven Blvd.
Baltimore, MD 21286-2227

Dear Mr. Wilder,

Lockheed Martin Corporation has just celebrated the ribbon cutting and has officially opened the Deepwater Information & Solutions Center (DISC) for Integrated Coast Guard Systems at our location at 300 M Street in Washington, DC.

This was a fast track project which required the combined exhaustive efforts of many folks on your staff. I wanted to take the time to compose a short note and thank you specifically for the efforts put forth by both Chris Evans and Paul Ghattas.

Both Chris and Paul spent many hours, even late at night making sure that we stayed on schedule and that everything was operating as planned. Even as schedules shifted, specifications varied and requirements changed, Chris and Paul did whatever was necessary to bring this project to completion on time.

Since I managed this project from our MS2 Headquarters in New Jersey, it was apparent that without the hard work and dedication to this project that these talented gentlemen had, it's certain to me that the project would not have been the success that it was.

Please also convey my thanks for a job well done to the other members of your staff who contributed to the overall success of this project.

Sincerely,
Joseph Julian, CTS
Multimedia Products Analyst, Sr.
